

Executive Millwork has become a **Health and Safety** leader in the millwork industry. We are proud to have led the way in

Calgary as the first millwork shop to receive our Certificate of Recognition from the Alberta Government, which we have held since 2001.

Executive Millwork is an active member of both AWMAC (Architectural Woodwork Manufacturers Association of Canada), and AWMAC Southern Alberta Chapter. As well, we are proud to be active in the Manufacturer's Health and Safety Association and the Calgary Construction Association.

Who We Are

Executive Millwork is an Alberta manufacturer of volume production millwork, as well as a custom millwork shop. We would be pleased to partner with you in providing production or custom millwork for your future projects. Over the past 29 years, Executive Millwork has built a solid reputation for **quality products and a commitment to on-time delivery**. At Executive Millwork we view our customers as business partners. Many of our current partnerships have existed since the company's inception.

Executive Millwork's primary products are **production millwork, custom millwork** and components, and the provision of related services. Our company mainly serves the custom commercial and institutional markets. Our principal millwork projects includes: institutional, medical/dental offices, restaurants, retail outlets, office interiors & furniture, and specialty projects such as entertainment facilities.

Our Mission at Executive Millwork

Executive Millwork Inc. is customer focused and committed to excellence by delivering high quality, competitively priced millwork solutions.

We are driven to be a leader in the industry as a preferred employer and an innovator in millwork who has embraced continuous improvement.

We are industry leaders for front end quality in **design and drawings** and have the versatility to handle unusual design details. This provides the basis for final products that we can be proud of and our customers are pleased with.

Our quality commitment extends beyond the manufacturing phase to include **installation and service support** that may be required to ensure the customer's complete satisfaction. Executive Millwork has experienced a growing demand for its specialized products and services by establishing and sustaining a solid reputation based on product availability, quality, and price.

Our 33,000 square foot **manufacturing shop** based in Calgary is fully equipped with the most current woodworking equipment and is staffed by highly skilled, conscientious cabinetmakers. We streamline our manufacturing production using the most advanced **CNC equipment and software**. With our **staff of experienced millwork professionals**, we have the expertise to manage projects for a wide variety of specifications and sizes. We believe it is our commitment to a friendly and professional atmosphere that helps us to maintain highly skilled employees.
